

QUALITY POLICY

VEC Civil Engineering Pty Ltd (VEC) undertake civil construction work in accordance with the drawings and specifications as issued by, or as otherwise agreed with, the customer and other legal requirements.

VEC is committed to consistently achieve a high-quality product thereby enhancing its reputation as a conscientious and reputable Civil Engineering Contractor who provides a significant level of customer satisfaction and compliance with ISO 9001.

VEC policy is to provide an economical and efficient service, fulfilling customer expectations, utilising both the Integrated Management System Manual, and other documents/specifications as appropriate, to ensure that its ideals are met and contract obligations are fulfilled without constraint or compromise.

VEC will ensure that this policy is understood, implemented and maintained through all levels of the organisation by the adoption of consultation, internal audit and review processes.

The establishment and maintenance of the Management System involves all employees, as VEC would be unable to achieve and operate to this high standard without the assistance and dedication to quality service and workmanship of all employees and contractors.

Management will provide leadership with quality policy and plans that support the company's strategic direction

VEC maintains third party Certification for ISO 9001 and pledges to constantly strive to achieve higher standards of Quality for each contract/project undertaken.

VEC Senior Management seeks to continuously improve the effectiveness and suitability of the Management System by providing a framework for improvement by establishing and reviewing quality objectives, through ongoing management review.
